The Amouage Manufacture and Visitor's Centre is located in Muscat, Oman. A modern design that feels out of time and place. Yet, human hands take precedence over machines. With over 15,000 visitors per year, the Visitor's Centre is a must visit when in Muscat (for info and reservation reach to). The majority of our perfumery products are manufactured here. We craft and develop each project in this space, taking care to perfect each element and paying close attention to the slightest details
